Pelican Programmes: Law Task

Please read the following scenario and then write a short response of no more than 250 words.

“You are a 17-year-old sixth form student and you want to buy some alcohol from Sainsburys. You pick out bottles of what you like and the Sainsburys staff do not ask for your ID. After you drink the alcohol with your friends, you get on your bikes and you drunkenly ride down the street to the main road. At the junction, a car, whose driver was on their phone, crashes into you and you suffer a broken leg.”

In this situation, who do you think is responsible for anything, if anyone at all?
